The Advisory proposed that the Tax Worker's cycle be changed to:

- FY21 will run from November 1, 2019 until October 31, 2020; Tax Workers will get a statement in 2020 and can put this toward their January/February 2021 tax bill or it will be automatically credited in April/May 2021. The property owner as of January 2020. The credit/income will show up in the Tax Workers 2021 tax cycle. The maximum tax credit will be \$1,000 per tax worker.
- FY22 to run from November 1, 2020 till June 30, 2021. This would allow the tax credit to be put against their October/November tax bill.
- FY23 to run from July 1, 2021 to June 30, 2022. This would allow the tax credit to be put against their October/November tax bill.
