

# 2020 FOSS FARM COMMUNITY GARDENS RULES AND PLOT APPLICATION

Applications for community garden plots at the Foss Farm Conservation Land will be accepted through March 30, 2020. Applications received after the deadline will be considered as first-time requests for garden plots. Send the attached application along with a check for \$15 for each plot (limited to 2 per household) to: **Carlisle Conservation Commission, Carlisle Town Hall, 66 Westford Street, Carlisle, MA 01741. Please make the check payable to the Town of Carlisle.** If you have no email access, please include a self-addressed stamped envelope.

**Plot Assignments** - One person per household (i.e. individuals residing at the same street address) may apply for up to 2 plots for the gardening season and is designated the *principal gardener*. The *principal gardener* may select up to 3 additional persons, not members of the household, who may share equal access to the plots assigned to the *principal gardener*. These individuals are designated *co-gardeners*. No person can be listed on more than one application form.

Plots are assigned to the *principal gardener* in priority order as follows:

1. Returning gardeners who had a garden plot the previous year (or year before, if they took a year off)\*
2. Returning gardeners requesting plot reassignment
3. New gardeners who have been previously wait-listed\*\*
4. New gardeners making their first request\*\*
5. Returning gardeners requesting a second plot
6. If there are plots available after all assignments have been made, they will be distributed by lottery to those applicants who have indicated their interest by checking the box on the application form.

\*Returning *principal gardeners* have the option to skip one gardening season without losing their "returning gardener" status.

\*\*If there is a waiting list for plots, new gardeners will be limited to 1 plot per household.

You will be notified of the Garden's opening date by email or regular mail, if you have supplied a self-addressed stamped envelope. Please do not drive into the garden area before the opening date.

A garden map indicating plot assignments will be sent to the *principal gardeners*.

## Garden Abandonment –

- By June 8, if a plot is not substantially cleared of weeds and there is no clear evidence of active gardening, the Garden Manager, may at his/her discretion, reassign the plot to another gardener.
- By July 1, if a garden has clearly been abandoned (i.e., plants have not been tended for over a month) the Garden Manager may at his/her discretion; reassign the plot to another gardener.

In either case, the application fee will not be refunded and the gardener may lose his/her "returning gardener" status. The Garden Manager's discretion will be based on the outcome of efforts to communicate with the gardener. Garden plots that become available due to abandonment, relinquishment or substantial inactivity will be reassigned for the rest of the growing season by first addressing the waiting list and then by lottery among interested existing gardeners.

## Garden Rules - The principal gardener is responsible for adherence to the garden rules.

1. Each plot must be tended primarily by the *principal gardener* and associated *co-gardeners* assigned to that plot unless you notify the Garden Manager of extenuating circumstances. Individuals who fail to observe this rule will not be considered for plot assignment the following year.
2. Do not plant outside the plot area as delimited by the yellow plot boundary stakes.

## Garden Rules (cont.)

3. All gardeners are expected to maintain their plots regularly and follow good gardening practices. Do not use wood chips or bark mulch to manage weeds. These materials do not break down quickly and tend to deplete the soil's nitrogen.

4. Keep plots weeded, including the 18-inch buffer strip surrounding the plot. This allows access around the sides and rear of the plot and also permits your neighbors to access their plots and the water pumps. If your plot abuts a pump, please help remove the weeds around the pump.

5. Keep all roadway edges outside the yellow plot boundary stakes clear to permit occasional mowing by the Garden Manager. Do not store rocks, bricks, stakes, tools, chairs, hay bales or mulch in this area or in the 18-inch buffer strip. Since there is no trash service, you are responsible for taking all non-plant material trash off site.

6. Do not remove or relocate the yellow plot boundary stakes or attach fencing to them.

7. Place all weeds and waste plant materials in the compost areas shown on the plot map supplied to you..

8. Do not plant mint or other invasive plants. Perennial plants should be removed at the end of the season to avoid spring plowing.

9. **Garden Road and Garden Gate** – Plots are accessible by automobile. Please drive slowly on the road to reduce ruts and dust. Please watch for pedestrians and wildlife. To prevent theft and unauthorized entry, if you are the last to leave the gardens, please lock the gate behind you.

10. **Pesticides** – Use of herbicides is prohibited. Only insecticides and fungicides listed by the Northeast Organic Farming Association [www.nofamass.org](http://www.nofamass.org) are permitted (see their link to National Organic Standards paragraph 205.601). For your own protection and the protection of other gardeners, familiarize yourself with proper use methods or ask experienced gardeners for help before applying any remedies.

11. **Well Operation and Etiquette** – To operate well pumps, prime the pump first by filling the pitcher opening on top with water from the barrel while pumping the handle. Please refill the barrel for the next person after you have drawn off the water you need.

**The Carlisle Board of Health considers water from these wells to be non-potable.**

12. **Pets** – Pets in and around the gardens must be kept under strict control to avoid damage to plants. Please be considerate of your fellow gardeners.

13. **Motorized Equipment** – Given the size of the plots, only small farm tractors, rototillers, weeders and water pumps are permitted for plot maintenance. Construction and landscape equipment, including bulldozers and excavators, are prohibited.

14. **Fall Cleanup** – By October 31, please remove all non-plant material including: plastic mulch, tools, stakes, logs, boards, fencing, rocks, bricks, string, cement blocks, etc. Late season crops may remain until harvested then moved to the compost plots. If you planted perennials, remember to remove them at the end of the gardening season since the plots will be plowed the following spring.

# 2020 FOSS FARM COMMUNITY GARDENS PLOT APPLICATION

## Principal Gardener

NAME: \_\_\_\_\_

MAILING ADDRESS: \_\_\_\_\_

NO. OF PLOTS REQUESTED (check 1 box only)     1 plot     2 plots

Would you like to participate in a lottery for an additional plot?     Yes     No
