

## Recycling – Printer Ink Cartridges

The Transfer Station does not accept Printer Cartridges.

### **How and where to recycle:**

Please bring ink jet and toner cartridges back to retailer for proper disposal. Staples and Best Buy, among other electronics retailers, will accept used ink cartridges.

### **Fun Fact:**

Almost all of your genuine ink and toner cartridges, up to 97% in fact, can be recycled, so there's no reason not to recycle them. Not only does this limit waste considerably, it also cuts down the cost, both financial and environmental, of manufacturing new ink and toner.
