

Hazardous Waste

Hazardous waste is brought to the Transfer Station on scheduled days attended by Clean Harbors which sets up behind the Transfer Station

The Carlisle Board of Health sets the date for these collections and also maintains a list of items which may be taken as well as the procedures to be followed during disposal.

No oil is currently accepted at Hazardous waste days – these should returned to retailers who sell oil as they are required to recycle old oil.

No Latex paints should be disposed of at Hazardous waste days. Latex paint should be dried and thrown in the trash.
