

Backyard Composting

Don't miss out on backyard composting! Benefits include:

- Fruit & vegetable scraps, coffee grounds, eggshells & yard waste become a **free** nutrient-rich soil amendment!
- Saves space in the landfill.
- You have lighter, easier to manage trash, requiring fewer trash bags.

NEW AGE COMPOSTER

EARTH MACHINE

Backyard Compost Bins for Sale

Subsidized backyard compost bins are available for Carlisle residents.

Choose from two types of bins - the New Age Composter and the Earth Machine. Either bin cost \$35 each.

Where to pre-order: <https://www.carlislema.gov/FormCenter/DPW-Transfer-Station-11/Backyard-Compost-Bin-Order-Form-62>

The compost bins will be available in mid to late summer and you will be contacted when yours arrives. Pick up will be at the Transfer Station.

Payment: \$35 check only [At Town Hall prior to pickup]
No credit or debit cards or cash

What to Put in Your Backyard Compost Bin

Fruits & vegetables

Eggshells

Coffee grounds

Leaves & untreated grass

Tip: Include lots of carbon-rich materials: dry leaves, plant stalks, twigs.

No meat, fish, bones, dairy, oils, or pet waste in backyard compost bin.

To learn more about backyard composting, visit epa.gov/recycle/composting-home.

Questions? Email: Recycling@carlislema.gov

NOTE: We need to meet the minimum order requirement for the Earth Machine.
