

Climate Resilient Carlisle

Affordable Housing Trust Meeting

Circle Back on our Discussion

November 19, 2024, 7 pm

Agenda

- Review prior discussion, joint discussion with Historic Commission
 - Note: Earlier discussion was heavily focused on historic commission and demolition delay. Would like to hear more from the Trust.
- Are we missing something we should be focused on?

Themes from Prior Discussion

- Houses in Carlisle are large and getting larger
- There is a need for smaller homes
- There is a need for “Missing Middle” housing
- Larger homes use more resources

What Code Revisions Can we Recommend to Make Carlisle More Resilient?

Goals:

- Keep smaller homes intact
- Allow a variety of home types
- Build/Allow more affordable housing and missing middle
- Recognize in the codes that multiple smaller homes have similar resource use to single larger homes

So, What should we be focused on for CAHT?

Questions?

Reach out if anything comes to mind!

Thank you!!
