filled out by the Town in concert with the Licensee detailing plans for crop, fertilizer and pesticide usage for the upcoming growing season.

10. The Licensee shall permit the public use of trails associated with the premises for passive recreational purposes and other activities outside the growing season as may be approved by the Town. The Licensee in accepting this condition does not waive any remedies it may have against a member of the public who damages the crop or property or interferes with farming practices on land covered by this license.
11. Where possible, consistent with the other goals expressed herein, the Town wishes to promote stability in the use and management of the Town's farmlands. Experience suggests that the farmer who is, in effect, a long-term partner in the management of a piece of Town of Carlisle farmland will care for it more responsibly than one who has only a short-term investment in the health of that piece. Therefore, when choosing among proposals, the Town considers favorably the fact that a proposed licensee is currently farming the land to be leased, provided the licensee's farming practices are otherwise in accordance with this and other applicable policies of the Town.
