

Massachusetts Department of Public Health

Arbovirus Surveillance Program Report

Key Public Risk Communication Messages for This Week:

MDPH identified eight WNV human cases from Essex, Hampden, Middlesex, Suffolk, and Worcester Counties and 451 WNV positive mosquito samples from Barnstable, Berkshire, Bristol, Dukes, Essex, Franklin, Hampden, Hampshire, Middlesex, Norfolk, Plymouth, Suffolk, and Worcester Counties. 23 EEE positive mosquitoes have been detected from Bristol, Hampshire, and Plymouth Counties. Seasonal mosquito testing concluded on 10/10/25.

Regional precipitation events and average daytime temperatures continue to support populations of WNV and EEE mosquito vectors until we experience a hard frost. Avoid mosquito bites by using EPA approved repellents, appropriate clothing, and avoiding peak mosquito activity between dusk and dawn. Remove standing water by emptying containers and tarps. Personal protection measures are recommended due to increased West Nile Virus activity and average mosquito vector populations across the state. Check your risk levels throughout the season by visiting our interactive site <https://www.mass.gov/info-details/massachusetts-arbovirus-update>

Please review the 2025 MDPH Surveillance and Response Plan for updates to risk levels and risk messaging. www.mass.gov/doc/2025-arbovirus-surveillance-and-response-plan/download

WNV and EEE Virus Surveillance Summary	
Results contained in this report reflect data up to and inclusive of MMWR Week 41 (Sunday, 10/05/2025-Saturday, 10/11/2025)	
Mosquito Surveillance	
Number of Mosquito Samples Tested	8788
Number of WNV Positive Samples	451
Number of EEE Positive Samples	23
Equine/Mammal Surveillance	
Number of Mammal Specimens Tested	7
Number of WNV Positive Horses	0
Number of EEE Positive Horses	0
Number of other WNV Positive Mammals	1
Human Surveillance	
Number of Human Specimens Tested	173
Number of Human WNV Cases	8
Number of Human EEE Cases	0

Summary of 2025 Mosquito Samples Tested Massachusetts State Public Health Laboratory
